

Building a World-class SME Data-as-a-Service (DaaS) Platform

Turning untapped SME data into market intelligence for capital market participants and a recurring revenue model.

THE OPPORTUNITY

More than USD\$127 trillion of the world's wealth sits in global equity markets.

Demand for timely economic insights has never been stronger. Yet, real-time SME data that reflects global economic activity remains largely untapped.

Tenet has created the Cubeler Business Hub to access SME data directly from the SMEs' accounting software systems and bring never before accessed insights to the capital markets.

WHY TENET MATTERS

Meeting unmet global demand for real-time industrial and economic insights

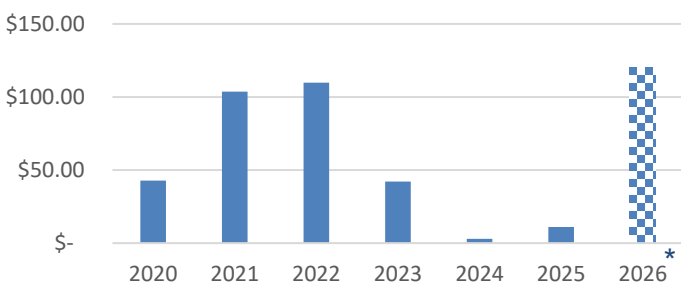

Unique access to SME data through proprietary AI-powered business development network

DaaS model delivering unique, timely, economic intelligence for clients, and scalable, high-margin recurring revenue for Tenet

HISTORICAL DATA

Revenue by Year
(in millions of CAD\$)

Share Price High by Year

* According to Tenet's first quarter 2026 Management's Discussion and Analysis, Tenet is forecasting revenue in excess of \$100 million for the 2026 financial year.

THE DaaS MODEL - SCALABLE. RECURRING. HIGH MARGIN.

SME Data Collection

Direct API integrations with SME accounting systems globally.

Data Processing & Governance

Clean, standardized, secure and governed data infrastructure.

AI Analytics & Intelligence

Convert raw data into actionable economic insights and indicators.

DAAS Delivery (Subscriptions)

APIs, dashboards and datasets to be delivered to capital markets clients.

Recurring Revenue & Growth

High-margin recurring revenue with global scalability.

DELIVERING DAILY INDUSTRIAL AND ECONOMIC PULSE THROUGH SME DATA

The demand for timely economic insights is immeasurable and was largely unmet until Tenet came along. Through its Cubeler Business Hub (www.cubeler.com), Tenet gathers data directly from the accounting software systems of small- and medium-sized businesses around the world. Tenet then uses the data to deliver unparalleled real-time industrial and economic data to its clients through the ie-Pulse platform (<https://tenoris3.com>). Tenet provides investors, government agencies, and economists with real-time economic intelligence, eliminating the need to wait for traditional government economic data releases.

OUR OPERATING SUBSIDIARIES

Cubeler is a global AI-based business development platform for SMEs. Cubeler provides SMEs with various value-added business services, including AI-based networking, business promotion, funding and insights, all free of charge if they link their accounting software systems to the platform. As Cubeler continues to grow and expand globally, so does Tenet's capability to provide real-time data on industrial and economic activity around the world.

FOCUS

- ✓ Proprietary SME network management
- ✓ SME data acquisition through direct API link

Tenoris3 transforms Cubeler's data into tailored, AI-powered products for capital market participants — delivering real-time economic indexes, macro indicators, proprietary datasets, and a distinct capital-market advantage through the ie-Pulse platform.

FOCUS

- ✓ AI, analytics engine & data commercialization
- ✓ Recurring DaaS subscription model

Asia Synergy Data Solutions (ASDS) manages and operates the Cubeler Business Hub in China as well as Tenet's GoldRiver supply chain platform. GoldRiver provides supply chain-related product and material sourcing and related services, such as purchase order financing, shipping and logistics to Chinese SMEs, and accounts for most of Tenet's supply chain-related revenue in China.

FOCUS

- ✓ Chinese platforms management
- ✓ Supply chain services related revenue model

LEADERSHIP TEAM
